FOR IMMEDIATE RELEASE

May 15, 2018

Grand Forks B.C. – Community Futures Boundary would like to reassure residents of the Boundary Region that we are working on developing real strategies and tactics to help remediate some of the most overwhelming impacts created by the floods in our region. We have seen the devastation first hand, and we stand beside everyone who has been impacted by this tragedy.

Community Futures Boundary is proud to be a part of this beautiful region and are fully committed to helping our business community recover and rebuild. At this time, we would like everyone in the region to know that we are actively advocating for assistance at all levels of government and are talking with community and regional stakeholders about the devastation we have experienced.

At an operational level, we are very proud to have displaced businesses operating out of our facilities and will continue to do everything we can to offer space, resources and administrative support to businesses impacted by the floods. We will be releasing a communique in the very near future which will articulate, in more detail, the specifics of our support strategies moving forward, but for now, we offer you our reassurance that Boundary Region businesses that have been impacted by the floods are our highest priority. We encourage you to continue to support one another and to do all you can to look after your own health and wellbeing.

All the very best,

Joan Thomas

Board Chair

Community Futures Boundary
