

Community Futures Boundary follows the direction of the Provincial Health Officer and Worksafe BC to do our part in minimizing exposure to COVID 19 by:

1. Ensuring staff and clients stay home and recuperate if feeling ill or having cold or flu symptoms like coughing, sneezing, runny nose, sore throat or fatigue.
2. Practising good hand hygiene and respiratory etiquette.
3. Maintaining physical distance through reducing the number of people in the office at the same time.
4. Cleaning and disinfecting surfaces more often, especially those frequently touched such as light switches, door handles, taps, etc.
5. Limiting non-essential travel outside of the community.
6. Following public health advice and staying informed.

**If you have questions, please contact Jennifer Wetmore at 250 442 2722 ext 225.**
